Women's Preventive Health contraceptives benefit update

AmeriHealth New Jersey is updating the way in which coverage for contraceptive medications is administered.

Beginning January 1, 2016, brand name contraceptive medications that have generic alternatives will go from being covered at 100% to covered at standard cost sharing.

Which members are affected?

This change impacts members who are prescribed brand contraceptive medications that have a generic alternative.

How will members learn about this change?

Members who have previously received these medications will receive a targeted letter on or around December 1, 2015.

We are providing the [sample member letter](#) (to be sent by FutureScripts), and the sample [fully-insured](#) customer notification letter.

Please refer to the [Questions & Answers](#) document for more information about this change.

If you have any further questions, please contact your Brown & Brown broker consultant.
